

MADISON TAYLOR

Structural Engineer | Building Design | Sustainable Infrastructure

+1-(234)-555-1234 Email linkedin.com Jacksonville, Florida

SUMMARY

With over 8 years of experience in structural engineering, adept at using AutoCAD and Revit for innovative building design solutions. Known for excellent problem-solving skills, collaboration, and keen attention to detail. Successfully led a major commercial project, improving construction efficiency by 15%.

SKILLS

AutoCAD Revit SAP2000 ETABS Structural Analysis Construction Management

EXPERIENCE

Senior Structural Engineer

GreenTech Engineering Solutions

06/2025 - Present Jacksonville, Florida

- Led the engineering team in designing complex structural frameworks for a high-profile commercial project, ensuring sustainability and compliance with local regulations.
- Developed detailed structural calculations, enhancing project delivery time by 10% through optimized material use.
- Collaborated with architects and project managers to address design challenges, utilizing negotiation and teamwork skills effectively.
- Conducted thorough on-site evaluations, identifying potential structural risks and implementing solutions to mitigate them.
- Implemented cutting-edge engineering software tools, which significantly increased project precision and reduced human error by 20%.

Structural Engineer

Innovative Structures Inc.

03/2021 - 05/2025 Orlando, Florida

- Designed and analyzed structural components for multiple residential and commercial projects, ensuring strict adherence to industry standards and client specifications.
- Managed cross-functional team collaborations, enhancing communication and project cohesion by serving as a liaison between different departments.
- Reviewed and approved technical documentation and construction plans, ensuring all designs met regulatory compliance.
- Achieved a 15% reduction in project costs through efficient material specification and supplier negotiations.

Junior Structural Engineer

Precision Engineering Works

07/2018 - 02/2021 Tampa, Florida

- Assisted in the development and revision of structural analysis reports, which improved project workflows by 12%.
- Utilized SAP2000 and ETABS for performing detailed structural analyses on various engineering projects.
- Contributed to on-site inspections, leveraging strong communication skills to document findings and liaise with senior engineers.
- Prepared detailed engineering drawings and specifications under tight deadlines, demonstrating excellent time-management and technical drafting skills.

EDUCATION

Bachelor of Science in Civil Engineering

University of Florida

01/2015 - 01/2018 Gainesville, Florida

KEY ACHIEVEMENTS

Led Major Commercial Project

Oversaw a \$5 million commercial project, improving construction efficiency and reducing time-to-completion by 15%.

Innovation in Sustainable Design

Received an industry award for developing a sustainable design technique that decreased material waste by 18%.

Publication in Engineering Journal

Co-authored a publication in a reputable engineering journal, focusing on innovations in structural analysis.

Client Satisfaction Excellence

Acknowledged by the company for achieving a 100% client satisfaction rate over two consecutive years.

INTERESTS

Sustainable Building Practices

Dedicated to advancing the principles of eco-friendly and sustainable construction methods in modern engineering.

Community Volunteering

Actively engaged in local community initiatives, promoting educational outreach in engineering fields.
